LANGUAGES & TECHNOLOGIES {

- HTML5, CSS, Sass, JavaScript, JQuery, NodeJs, JSON.
- Bootstrap, Tailwind.
- GIt, Github, UI/UX, SQL.

}

EXPERIENCE, PROJECTS {

- **The Aimee Oki Foundation**

tasked with revamping a non-profit organization's Wix made website; I created them a brand new, cleaner website. The site is comprised mostly of HTML and vanilla CSS with some Javascript mixed in to help with animations and interactivity with certain elements.

- **Moshified**

The final project of the first HTML, CSS course I took was a mock web-hosting app called Moshified. This Project was mainly comprised of HTML and vanilla CSS along with JavaScript for intractability.

- **RememberThat**

A landing page for an app that assits users with task management. This project was comprised of very simple HTML and SASS.

}

FREELANCE EDUCATION {

- FreeCodeCamp
- Mosh.com

}
